

## Onboard 365 is a new low cost way to get onboard with Office 365 – it's easy and no upfront costs!

Office 365 is more than just email and office applications. It's a complete rethink in the way small business can manage their day-to-day IT requirements.

- Removes the requirement for costly on-premise equipment
- Solves your challenges around software updates and license management
- Delivers enhanced collaboration
- Provides access from anywhere - and users can share documents securely
- Eliminates the need for VPNs and file servers (reducing IT overhead and management)

**Simplify your IT with Office 365.**

**Simplify your move to the cloud with Onboard 365.**

## Whats Included?

In addition to being onboarded to Office 365 we also include the following:

### ON-GOING SUPPORT

1800 GET 365 | [support@c2conline.com.au](mailto:support@c2conline.com.au)

Our experienced, local team will provide Australian business-hour Help Desk Support (Monday to Friday, 9am-5pm). We will assist with any aspect of Office 365 administration but typical support requests include:

- Usage and adoption queries
- Adds, moves and changes
- Distribution list management
- Shared calendar set-up
- Alias management
- New user set-up
- SharePoint permissions
- SharePoint settings
- Office 365 updates

### SHOW ME OFFICE 365

A unique inclusion in our monthly support subscriptions are the ShowMe Office 365 training videos – an implementation of just-in-time learning. Accessible from within each user's Office 365 SharePoint Online account, the library of over 1,300 videos provides context-sensitive, on-demand, bite size videos that show users how to complete specific tasks and processes within Office 365.

Office 365 is a rapidly changing and improving platform which adds huge value. Showme Office 365 helps keep users up to date with all the latest feature releases.
